DORS Level Up provides students with the tools, training and resources to work competitively and develop a path to independence. We are building relationships with schools, families and community resources. We've created a collaborative partnership for students ages 16 to 21 who have an IEP, 504 plan or related challenges to new possibilities. **Our goal is to help students be prepared to go out and find their place in the world.**

Please attend our resource day to learn more about DORS Level Up, the available services and how students can access these new services.

Breakfast and Lunch will be provided.
