Classroom Management: Fostering a Culturally and Linguistically Responsive Learning Environment for English Language Learners

March 2018

This resource guide includes research and other recent informative articles pulled from literature and the Library's educational database service for schools, programs, service providers and families to share best practice ideas for establishing and managing an inclusive classroom environment for meeting the needs of English language learners through instructional practices that are relevant, meaningful, and build on each learner's strengths. It should be noted that it does not represent the full scope of resources and information available on this topic nor serve as an endorsement of a particular resource.

Introductory Article:

Enhanced Knowledge and Skills for Elementary Mainstream Teachers of English Language Learners

de Jong, E. J., Harper, C. A., & Coady, M. R. (2013).

Enhanced Knowledge and Skills for Elementary Mainstream Teachers of English Language Learners.

Theory Into Practice, 52(2), 89-97.

The placement of English language learners (ELLs) in mainstream classrooms raises important questions about the preparation of mainstream teachers to work with ELLs. Grounded by the conviction that well-prepared teachers can make a difference in student learning, and informed by current views on teacher learning and by teacher preparation research, this article conceptualizes ELL teacher expertise as enhanced expertise.

It describes this expertise along 3 primary dimensions, along with examples of practices and implications for teacher preparation. The 3 dimensions are: (a) understanding ELLs from a bilingual and bicultural perspective; (b) understanding how language and culture shape school experiences and inform pedagogy for bilingual learners; and (c) ability to mediate a range of contextual factors in the schools and classrooms where they teach.
